When you think you're trolling slow, slow down more and you'll catch fish. The Smile Blade® provides life-like action at 1/4 mph. and they're easily tuned. Use a wide blade angle for a slow rolling wobble or narrow blade angle for a vigorous shake and spin. When the temperature drops and the fish get sluggish, the Smile Blade® is a tournament proven lure. Whether rigged Carolina-style as a finesse bait or on a bottom bouncer as part of a live bait presentation, these blades will catch fish.
